

The Gentry Group Showing Instructions

We ask that you adhere to the following when seeing the property:

- Discourage anyone who does not need to view the property from attending the showing
- Agents and clients should meet at the property and not drive to the property together
- Disinfect the key, the box, and the doorknob prior to utilizing and after the showing
- Bring and use your own sanitizer and gloves, if possible
- Put on gloves prior to entry and dispose of them after leaving the property
- Refrain from touching any surface during a showing
- Maintain a safe distance from anyone by staying a minimum of 6 feet apart
- If the size of the residential unit makes it difficult to maintain the six-foot distance for all parties attending the showing, individuals may need to wait outside and come in the property one at a time, **at all times maintaining proper social distance.**
- Please do not use the bathroom in the home
- Please leave all the lights on and leave all interior doors open
- In periods of wet conditions, please remove shoes and leave outside
- Agents: please ensure that if there is an agent waiting to show the property, that they access the key through the lockbox
